## GROW YOUR ONLINE BUSINESS WITH ENDICIA SHIPPING SOLUTIONS

Why do successful e-commerce shippers include USPS as a major part of their shipping mix? It's quite simple... the USPS offers unbeatable shipping rates, faster delivery speeds and new tracking technologies that go "toe-to-toe" with any carrier. Without all the hidden fees and surcharges. And Endicia? We offer seamless integration of USPS services into your workflow. Including exclusive features you won't find anywhere else.

## WHY USPS?

The U.S. Postal Service® is an essential part of the shipping mix e-commerce businesses. Regardless of the size of your business you ship using Endicia to access the USPS can help save you money and improve your customer experience.

- **No "hidden" fees or surcharges.** There are no extra fees for rural delivery or Saturday delivery, and no fuel surcharges.
- **Most affordable for lightweight and medium-weight packages.** Private carriers charge based on Dimensional weight - which makes a large lightweight package dramatically more expensive.
- **End-to-End Package tracking.** USPS provides up to 11 tracking services so you and your customer will always know the status of their packages.
- **More international delivery choices.** USPS Priority Mail International offers an expedited 6-10 day delivery option not offered by the private carriers.
- **Convenience.** Free package pick-up and over 31,000 retail locations (more than 4x FedEx and UPS locations combined).
